Enfields Kitchen Gateshead, UK

PRODUCTS USED:
Affinity2⁵⁵ PUR

Heavy commercial luxury vinyl tiles from Polyflor's Affinity2⁵⁵ PUR collection of high-design wood effect flooring were recently chosen for the refurbishment of Enfields Kitchen, a student run restaurant at Gateshead College.

Affinity2⁵⁵ PUR luxury vinyl tiles in the popular Huckleberry Oak design were installed by local flooring contractor Floorstyles-Direct in the restaurant's dining area. Situated at Gateshead College's Baltic campus, Enfields Kitchen is a contemporary restaurant where all the food is made and served by students enrolled in the college's hospitality and catering courses to give them experience of running a real restaurant as part of their training.

Tracy Ashcroft, Assistant Principal at Gateshead College commented, "We're so happy with the results of the refurbishment and Polyflor's Affinity2⁵⁵ flooring has helped us create a contemporary restaurant interior. It's the perfect setting to showcase the talents of our college's young chefs to the public."
