Tegfan Resource Centre Aberdare, UK

PRODUCTS USED: Affinity2⁵⁵ PUR

Affinity2⁵⁵ PUR wood effect luxury vinyl tiles from Polyflor, the UK's commercial and residential vinyl flooring specialist, were recently installed at Tegfan Resource Centre, a care home facility in Aberdare, Wales.

Heavy commercial Affinity2⁵⁵ PUR luxury vinyl tiles were fitted in the dining area of Tegfan Resource Centre, which is a 49 bed aged care residential home operated by Rhondda Cynon Taf County Borough Council. Installed by Treorchy based flooring contractors Carpets 'N' Carpets Ltd, the Dappled Oak design from the Affinity2⁵⁵ PUR collection includes tan and honey tones in a smooth oak plank pattern.

The flooring chosen for care home interiors can play a significant role in creating a safe, comfortable and dementia-friendly environment with a harmonious feel that residents can feel at home in.
