RSPB Bempton Cliffs visitor centre Near Bridlington, UK

PRODUCTS USED:
Expona Flow PUR
Polysafe Verona PUR

Polyflor's Expona Flow and Polysafe Verona vinyl flooring was recently installed in the refurbished visitor centre at RSPB Bempton Cliffs nature reserve near Bridlington, East Yorkshire.

Designed by East Yorkshire based Salt Architects, the new RSPB Bempton Cliffs visitor centre is busy with visitors coming to see the 200,000 seabirds who nest in the towering chalk cliffs every year.

Around 240m² of Expona Flow heavy commercial sheet vinyl flooring in Honey Beige was installed throughout the visitor centre's exhibition area and gift shop by Paul Hood & Son flooring contractors of Hull. The Honey Beige design is from the Infinity collection in the Expona Flow range and was chosen to complement the surrounding coastal environment of Bempton Cliffs. Polysafe Verona PUR decorative, carborundum-free safety flooring in Cookie Cream was also installed in stairwells, corridors and bathroom areas to provide sustainable wet slip resistance.

Keith Clarkson, Site Manager at RSPB Bempton Cliffs nature reserve commented, ,

"As this is one of the best locations in the UK to watch seabirds we've had over 40,000 visitors since we reopened the centre in April. We needed a floor that was hardwearing and easy to clean yet beautiful to look at. The finished floor is just what we wanted and we've had fantastic comments from the public about the refurbishment."
