

Sports Centre

Brinnington Park Leisure Complex
Greater Manchester, UK

PRODUCTS USED:

Sport 67, Polysafe Hydro, Polysafe PUR,
Polysafe Wood FX

Polyflor's Sport 67 in Maple was the flooring of choice for GT3 Architects when completing the new £7m Brinnington Park Leisure Complex in Stockport. Developed through investment from Stockport Council the new centre, operated by Life Leisure is replacing the old Lapwing facility which closed its doors for the last time in late February.

Facilities in the new centre include a gym, aerobics studio, community room, boxing gym and four court sports hall where a number of Polyflor products were fitted including Polysafe Hydro, Polysafe Standard PUR, Polysafe Wood FX Acoustic in Silver Oak and 690m² of Sports 67 in Maple.

Steven Mirtle from GT3 Architects commented, 'Polyflor was the ideal choice when it came to fitting out the new sports centre, we needed to ensure that the flooring fitted could withstand the everyday stresses of a gym and sports centre whilst giving a great finish and we are confident we have achieved this.'
