Reigate Grammar School Surrey, UK

PRODUCTS USED:
Expona Flow PUR

Beautiful wood effect vinyl flooring from Polyflor's Expona Flow range was recently selected to refresh the look of a school hall at Reigate Grammar School in Surrey.

400m² of Expona Flow sheet vinyl flooring was installed by Brampton Flooring for the school hall refurbishment. The warm and inviting Blond Oak design, which authentically replicates the natural beauty of timber planks, was chosen to enhance the large, bright space of the hall. Specified by Julian Sawyers of J S Surveying Associates, this classic light oak design was ideal for the multi-purpose space which is used daily for school assemblies, meetings and a variety of school functions.

Carmel Grater, Operations Manager at Reigate Grammar School commented,

"For our school hall we wanted a floor that had the beauty of real wood, was easy to maintain and would give us years of performance. Expona Flow flooring hasn't disappointed and we're delighted with the final look of our refurbished space."
