The Grand Hotel Swansea, UK

PRODUCTS USED:
Affinity2⁵⁵ PUR

Heavy commercial luxury vinyl tiles in stunning wood effects from Polyflor's Affinity2⁵⁵ collection were chosen to give The Grand Hotel in Swansea a new look.

Two authentically reproduced wood plank designs from the Affinity2⁵⁵ range were installed by local flooring contractor DM Flooring and Tiling at the hotel in Swansea city centre which is part of the Great National Hotels group.

Huckleberry Oak with intense grain detailing and surface texture was chosen for the hotel restaurant whilst the Smoked Walnut design with striking markings was used in corridors as well as in a herringbone design in conference rooms.

Michelle O'Rourke, General Manager at The Grand Hotel commented, "For our refurbishment we needed a practical yet attractive floorcovering that would enhance the look of the hotel but would also be easy to take care of. Our new Affinity2⁵⁵ flooring has really helped us transform our restaurant and conference suite."
