Wigan Youth Zone

PRODUCTS USED:
Polysafe Modena PUR

High clarity Polysafe Modena PUR was the safety flooring of choice for the eagerly anticipated Wigan Youth Zone in Lancashire. Wigan Youth Zone is the UK's largest youth club and opened after the combined efforts of businessmen Martin and Bill Ainscough, Dave Whelan and Wigan Council. The youth centre offers a diverse range of facilities to local young people including a gym, sports hall, climbing wall and dance studio.

Over 600m² of Polysafe Modena's vivid Citrina, Garnet and Angelite colourways were installed by iFloor (UK) Ltd of Liverpool. They were designed to create zonal areas within the main entrance hall, providing a colourful centrepiece and safe welcome to the local community. The youth zone's General Manager John Harker comments,

"Wigan Youth Zone caters for hundreds of young people on a daily basis. It was essential that the flooring chosen was able to cope with the high footfall, offered sustainable slip resistance but also added to the vibrancy and energy of the centre. Polysafe Modena ticked all the boxes".
