## Artur Ferreira House Esposende, Portugal

### PRODUCTS USED: Colonia PUR

Luxury vinyl tiles from Polyflor's Colonia range of flooring for residential interiors was installed throughout a stunning 3 storey house with a magnificent view of the Cávado River in Esposende, Portugal.

300m<sup>2</sup> of Colonia luxury vinyl tiles in the Kings Oak design from Thumann Foszrev, distributor of Polyflor vinyl flooring in Portugal, were installed throughout the house, including in the kitchen, bedrooms, bathrooms, corridors and living spaces. The dark wood effect vinyl flooring perfectly complements the fresh, minimalist white interior.

Artur Ferreira, Project Owner commented "I didn't have any knowledge about vinyl flooring but after a brief presentation from Thumann, I chose to use Colonia luxury vinyl tiles for my house that I was building from scratch. I'm delighted with the final result and the floor matches the quality of every construction material that I've chosen to be a part of my house. Thumann did a great job installing the floor and they responded quickly to any query I had. I'd definitely recommend this kind of flooring solution."
