The Falcon Hotel Bridgnorth, UK

PRODUCTS USED: Expona Commercial PUR

Expona Commercial luxury vinyl tiles were used to create a stunning entrance and bar area for The Falcon Hotel in Bridgnorth, Shropshire.

Approximately 150m² of Expona Commercial PUR luxury vinyl tiles in the Tanned Chevron Parquet design was installed by Graham Flooring as part of the boutique hotel's ground floor refurbishment project. With 14 bedrooms, The Falcon Hotel is a historic building, originally established in the 17th Century as a coaching inn.

This product is one of the out-of-the-box design floor options in the Expona Commercial collection which allows flooring contractors to create a chevron parquet effect quickly and easily, with minimal cutting required. A twist on the traditional parquet trend, this design is created by simply laying the full planks next to each other to produce the chevron effect.

Owner of The Falcon Hotel, Richard Davies commented, "The finished effect of this flooring design looks fantastic and creates a great first impression when guests walk into the hotel. The flooring could be installed quickly which was good news for getting our refurbishment finished on time."
