## Redhouse Merthyr Tydfil, UK

PRODUCTS USED:  
Affinity2<sup>55</sup> PUR

Luxury vinyl tile flooring from Polyflor was recently used to help give a fresh new look to JOL's café at Redhouse arts and cultural centre in Merthyr Tydfil, Wales.

Wood effect Affinity2<sup>55</sup> PUR luxury vinyl tile flooring was installed by local flooring contractor Kevin Hamer Carpets as part of Merthyr Tydfil Housing Association's project to refurbish parts of Redhouse, an arts, cultural and creative industries centre situated in the Grade II\* listed Old Town Hall. With its rich hues and authentic grain detail, the popular Huckleberry Oak design was chosen for installation in the JOL's café area and throughout refurbished gallery spaces.

Gavin Lloyd, Operations Manager at Redhouse commented, "We're delighted with the new look of JOL's café and have received many positive comments from our visitors about the refurbishment. The flooring design fits in perfectly with both our contemporary interior design scheme and the historic architecture of our building."

The Affinity2<sup>55</sup> collection of luxury vinyl tiles has been created for use in commercial environments such as galleries and museums where there is likely to be high levels of foot traffic. This range is also ideal for dining areas such as cafés, bars and restaurants as it features a cross linked and UV cured polyurethane reinforcement (PUR) which protects the floor and allows for a simple cleaning regime.
